

A LAW TO REQUIRE VOTER ID

Summary: This proposed law would require prospective voters to show a photo identification before being given a ballot at a polling place on Election Day. The photo identification presented would have to be issued by a branch of the United States Government, or by the state, or by a tribal authority recognized either by the United States or the state. Voters who do not present such identification would be permitted to vote if they execute an affidavit attesting to their identity and residence.

Tell me more.

36 states require voter id. Polling consistently shows more than 70 percent of all voters, D, R, and U, support requiring identification to vote.

What if I forget my ID on election day?

No voter will be turned away from the polling location because they don't have an ID. A voter who is unable to produce a government-issued ID will be asked to sign an affidavit attesting to their identity, creating a document trail in the event of suspected election fraud.

When will the proposed law appear on the ballot?

If 85,000 qualified signatures are gathered by mid-November, the initiative petition question will appear on the November 2022 ballot.

Remember, signature gathering time is not a time for debate and argument. If someone disagrees with the idea or is uncomfortable with signing, thank them for their time and move on.
